ABOUT ME

Passionate and dedicated computer science student, with a keen interest in software development. Seeking professional experience with opportunities for career development as a software engineer intern, where I can effectively utilize my knowledge and skills.

PROJECTS

Artizon 2023 - Present

Spearheaded a T-shirt customization website with 3D modeling, seamless orders, accurate pricing, secure payments, and streamlined inventory. Demonstrated web development and project management skills.

Tech stack used: ReactJS, NodeJS, ExpressJS, ThreeJS, MySQL

[Link](#)

Sobawitha 2022

Sobawitha is a web application strategically designed to revolutionize fertilizer management within the agriculture sector. This innovative platform offers users seamless access to fertilizer search, purchasing, and rating functionalities while facilitating robust communication and collaboration among agri-officers, farmers, producers, and suppliers.

Furthermore, it served as a catalyst for sharpening my project management and teamwork proficiencies. Sobawitha stands as a testament to my unwavering commitment to harnessing technology for the positive advancement of the agriculture industry.

Tech stack used: JavaScript, HTML, CSS, MySQL, PHP
